Halcones has the right to acquire a majority interest in three large mineral properties located in Sonora, Mexico. Sonora is the northernmost state in Mexico and borders the United States of America. All of the Company's property interests are located within or adjacent to, a free trade zone within the State, a fact that facilitates cross-border access and general business. The properties are characterized by ease of accessibility, well developed infrastructure, access to a ready and skilled labour pool and a large degree of common logistics due to their relative proximity to each other.

The Company's mineral property interests are the Colibri Property, the Leon Property, and the Ramaje Ardiente (Ramard) Property. These properties are in the exploration stage only and are without a known body of commercial ore.

The Company's ability to continue as a going concern in the short term is dependent upon its ability to obtain financing. The Company has obtained financing by the issuance of share capital. Although the Company has been successful in the past in obtaining financing, there can be no assurance that it will be able to obtain adequate financing in the future or that the terms of such financing will be favourable.

Each warrant will entitle the holder to purchase an additional common share of the Company at a price of \$0.70 per share until April 20, 2008. The proceeds of the private placement will be used primarily for exploration and drilling on the Company's Sonora, Mexico claim properties, as well as for general working capital.

Additional disclosure concerning the Company's general and administrative expenses and resource property obligations and commitments are provided in the Company's consolidated statements of operations and deficit and notes therein.
